INDUSTRIAL EQUIPMENT CHAIR SYSTEMS

OPERATOR CHAIR SYSTEMS

BUILT TO ORDER. BUILT TO PERFORM

J.R. Merritt manufactures complete, custom-configured operator chair systems featuring joysticks and controls that allow for full integration with your machinery. With an array of options and customization possibilities, Merritt operator chair systems are designed with a multitude of features and adjustments to optimize operator comfort and boost productivity.

MERRITT SYNERGY

Combining superior comfort and adjustability, the Synergy line of operator chair systems brings ease of use and productivity to new heights.

MERRITT SELECT

The standard in cab-operated cranes and machinery, the Select offers a balance of adjustments and durability in a field-proven design.

MERRITT ULTRA

The Merritt Ultra offers the most rugged construction and oversized consoles to house a multitude of joysticks, controllers, and pilot devices.

HFC-100

With its compact footprint, the HFC-100 is ideal for smaller-sized cabins and mobile equipment applications.

TURN-KEY SOLUTIONS

Chair systems are available fully wired to terminal blocks, ready for easy installation. Alternatively, you can choose an unwired or blank chair system, which provides the freedom to populate it in the field.
