DGO ROTARY TRANSFORMER

Extremely high life contactless rotary differential transformers that are ideal when duty cycle is high and where the transmission of an AC signal is a requirement. For use in applications where a variety of output characteristics are necessary. Suitable for crane applications where a slightly higher or lower reference voltage may be needed.

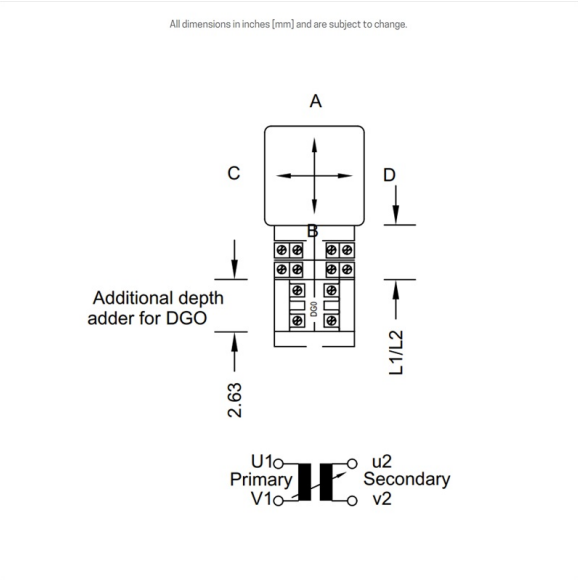

SPECIFICATIONS

TECHNICAL DATA

Transformer Rotation	+/- 105?
Maximum Load	3VA
Weight	1.43 lbs
Voltage (DGO-1)	Primary 115VAC Secondary 50VAC @ 50 or 60 Hz
Voltage (DGO-2)	Primary 220VAC Secondary 50VAC @ 50 or 60 Hz
Voltage (DGO-3)	Primary 115 VAC 2 secondary windings 30VAC each @ 50 or 60HZ
